

## ANNE HARVEY DESIGN

Anne Harvey Design offers a unique collection of handmade silver jewelry and nickel silver hair accessories. The designs are inspired by everything from familiar proverbs and fables to contemporary chance encounters. Original pieces such as the Raining Cats & Dogs earrings and the Stork Delivering Baby pin are examples of the light-hearted, yet elegant style of the Anne Harvey Collection.

The Harvey sisters, Anne and Jane, create their original designs in their San Francisco studio. The jewelry is then manufactured to high standards in the ancient silver center of Taxco, Mexico where Anne lived for five years, building a close rapport with a small group of artisans.

"Our philosophy with our clients is the same as with our craftspeople," Anne and Jane explain, "we're up front and open so as to sustain a long-term working relationship."

While Anne Harvey Design creates exclusive small-run pieces for special clients, it continues to expand the production line by introducing new designs every three months.

Anne and Jane have intentionally kept their operation small in order to remain close to every step of the process from design to manufacture to distribution. "We enjoy doing our own designs, handling the product and deciding where to sell it," Anne says. "It's important to take care of business, but it's also important to spend time making jewelry."
